**Part III REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: The prior art of record does not teach, disclose, or suggest the claimed limitations of (in combination with all other limitations in the claim), an image processing method for controlling an image processing apparatus which can communicate to a plurality of output apparatuses including an output apparatus by inputting the latest output characteristics data for calibration corresponding to each output apparatus; calculating density correction data corresponding to another output apparatus on the basis of the latest output characteristics data, and updating the density correction data corresponding to the output characteristics of the another output apparatus according to both the density correction data of the another output apparatus calculated in the calculating step and updated output characteristics data of the reference output apparatus as claimed in claim 1. Similar features are claimed in claims 7, 9, 10, and 11. Therefore, claims 7, 9, 10, and 11 are allowable over the prior art of record for the same reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mark E. Wallerson whose telephone number is (703) 305-8581. The examiner can normally be reached on Monday-Friday - 6:30-4:00.
